Summary

Vigilant cat with a Ph.C. (Doctor of Philosophy in Cat) and 5+ years of cat-tree scratching experience, specializing in patrol, early detection, and fast response. Published on indoor rodent detection, comfortable on long quiet shifts, and happy to train the next litter.

Languages/Tools Meow, Chirp, Slow Blink, Scratching Post, Laser Pointer

Skills Bird Watching, Box Inspection, Pouncing, Night Vision, Kitten Mentoring

Experience

- Head of Windowsill Operations**, Sunbeam Estates, Living Room Apr 2023 – Present
 - Monitored 400+ birds and 37 squirrels a day from the bay window, chirping alerts in under 2 seconds
 - Initiated and led “Operation Red Dot”, a household-wide laser-pointer pursuit program spanning 12 rooms, with a perfectly consistent record of zero dots caught
 - Mentored two younger cats in advanced counter surfing; both were promoted to Lap Supervisor
- Senior Box Inspector**, Cardboard Box Co., Garage Feb 2020 – Mar 2023
 - Inspected 1,200 boxes of every size, confirming “if it fits, I sits” across 98% of form factors
 - Shipped “Hairball Express”, a chirp that warns humans 30 seconds before delivery (on the rug)
 - Designed a nine-step scratching schedule that kept claws sharp and cut couch damage by 55%
- Professional Napper**, Catnip Farms, Any Warm Laundry Jul 2017 – Jan 2020
 - Reduced lap-acquisition time by 40% by rerouting approach paths around the coffee table
- Kitten Intern**, Happy Paws Shelter, Cage 3B Jun 2016 – Sep 2016
 - Delivered three toy mice per day to the volunteers’ shoes, establishing a reputation for reliable gifting

Projects

- Red Dot Tracker, laser-pointer pursuit analytics**, Open source May 2021 – Present
github.com/example/red-dot-tracker (1.2k+ stars, 0 dots caught)
 - Created an open-source tracker that chases the red dot across walls and pounces on every outlier

Education

Calico University, Catnip Valley — Ph.C. in Feline Philosophy Sep 2012 – Jun 2017
Dissertation: Landing on Your Feet: A Unified Theory of Self-Righting

Tabby Institute of Technology — B.S. in Box Science Sep 2008 – May 2012
